

BIOVARIA **MUNICH**

3 - 4 MAY 2027

EUROPE'S LEADING SHOWCASING EVENT
FOR LIFE-SCIENCE TECHNOLOGIES

Market your technologies to your target audience:

- Decision makers from the biotech and pharma industry
- Leading life-science investors

BIOVARIA 2027 - BE A PARTNER!

BioVaria targets technology scouts, business developers and investors highlighting commercially attractive licensing opportunities and promising startups from across Europe. This unique event connects Europe's leading tech transfer professionals, innovators from academia and startups with investors and representatives of the global biotech and pharma industry.

Join us and present your technologies to

- initiate partnerships with the international biotech and pharma industry
- attract investors and fund managers specialized in the life sciences
- expand your profile and strengthen your network
- promote your startup projects
- connect with your peers in technology transfer from across Europe

BioVaria partnerships are open to

- technology transfer organizations
- national technology transfer associations
- public research institutes, universities or associated funds that have innovative, patent-protected and commercially attractive technologies to offer
- clusters representing local technology transfer offices
